STOCO

STOCO is a product with a colourful natural granitic texture. Having mainly in mind the quality and innovation, STOCO presents the best solutions from the market to set your creativity free.

It's not only decoration, it's about the creation of an environment that reflects your own style and needs.

STOCO presents a range of colourful granite under the form of gravel, with different colours, tones and dimensions, which grants a high capacity of adapting to different usages, from gardens, aquariums, vases to small flower beds.

Besides it's a product with longevity, completely eco-friendly and an easy maintenance.

Stoco is a natural product whose raw material (Granite) ensures sustainability with longevity and low maintenance.

Stoco is non-toxic, can be used together with any animal or plant, allowing to create an environment adapted to every style and need.

Its versatility in colors and sizes allows the customization of every space.
