Penafiel, Zona Industrial - N.º 2, Lote 6 [Google map](#)

Areas of Activities

Ornamental stones, rocks and glass

Lighting, electricity, domotics, robotics, new technologies and information technology

Offer & Request

Architectural integration solutions

Photovoltaic systems; lighting and electrical installations (domotics, LED, reactive energy and telecommunications installations in buildings); energy certification (household final consumption, solar kit for domestic use); processing of acrylic stone (similar to natural stone, highly hygienic, ideal for environments with high hygiene and health requirements, such as chemical laboratories or operating rooms).
